To unzip correctly:

1. Double click the zip file.  You should get a screen similar to the below.

2. Select the "Extract" icon.: You should get a screen similar to the one below.

3. Change the "Extract to" = "C:\" and tick the "Use Folder names", as well as the "Overwrite existing files"  (exactly as above)
4. Select the Extract button.
5. Yow can now exit from the WinZip program.
